Andrey Roshchupkin

QA ENGINEER

Profile

Enthusiastic engineer with a passion for programming and quality assurance eager to contribute and bring product quality according to its requirements and even higher. Seeking an opportunity to apply technical expertise and problem-solving skills in teamwork setting, while continuously learning and growing in a dynamic environment.

Employment History

Founder at DocInfo, Armenia

JUNE 2023 – P.T.

Found non-commercial startup for inexperienced engineers to work together on product for Armenian medical market. During this activity I gained experience from team management to defying architecture of complex application and CI/CD.

Informatics teacher at Algorithmics.com, Yekaterinburg

AUGUST 2022 – JANUARY 2023

Taught students the basics of programming and web development.
In teaching, was not limited to the curriculum. I found applied solutions of the provided knowledge in a commercial environment on real cases (search and creation of solutions for small businesses).

Education

Russian Federation Air Force Academy
Engineer, Cyber/Electronic Operations and Warfare

AUGUST 2007 – JUNE 2012

In addition to the military specialty, I received a civilian qualification as an engineer. During my training, I studied analog and digital devices. Designed and manufactured a phase-modulated signal generator. Developed a scheme for a digital radio intelligence module as a graduation project.

Courses

MAY 2023 – SEPTEMBER 2023

QA Automation Engineer, EPAM Systems. Link to the qualification work (e2e testing framework based on WDIO and Page object pattern with parametrized execution from Jenkins):
